HYBRID CLOUD ENABLEMENT

Getting to the cloud has never been easier or more seamless.

With a suite of cloud enablement services, Equinix Professional Services for Cloud (EPS Cloud) makes it simpler than ever for your enterprise to complete the setup and configuration necessary to activate a connection to the cloud, create the foundational cloud elements, employ appropriate security and provide adequate training for everyone on the cloud team – all tailored to your company's specific needs and requirements.

- Ease your transition to the cloud from both a technical and business perspective
- Attain a solid cloud foundation that supports your existing applications and infrastructure requirements, and provides the flexibility to easily grow and change with your company requirements
- Get your team quickly up to speed on everything cloud with a dramatically reduced learning curve

Microsoft Partner

Gold Cloud Platform
Gold Application Integration
Silver Application Development

Our enablement services include:

Cloud connectivity

Using your legacy systems as well as the latest, most effective solutions, EPS Cloud configures your connectivity (VPNs and VPC-to-VPC) to the cloud environment, including Azure Express Route and Amazon Web Services (AWS) Direct Connect.

Cloud foundation

EPS Cloud creates the foundational elements (network, storage, core cloud infrastructure as a service (IaaS), and basic platform as a service (PaaS) component configuration) for your entire cloud infrastructure, providing your company with a solid base from which to grow.

Cloud security

EPS Cloud navigates your team through the initial security and setup phases, ensuring every aspect of your operations are taken into account. The security setup typically includes creating cloud security framework security groups, determining access control lists (ACLs) and developing isolation protocols, in addition to establishing preliminary guidelines to manage identity and access.

Hybrid Cloud Enablement

Cloud training

EPS Cloud collaborates with you to define the most efficient and effective cloud training plan that meets the needs of your organization. This typically includes creating a customized training plan, providing team training and delivering a cloud enablement runbook.

Contact EPS Cloud today via [e-mail](#) or by calling +1 212 202 5800. We look forward to hearing from you!

About EPS Cloud

Equinix Professional Services for Cloud (EPS Cloud) provides enterprise hybrid cloud solutions and migration services, helping enterprise organizations adopt and integrate cloud technologies.

In partnership with cloud platform and product industry leaders, EPS Cloud delivers end-to-end capabilities to help enterprises build scalable, highly available, resilient, cost-efficient and secure interconnected cloud environments.

By continually providing superior hybrid cloud solutions to satisfy business objectives, simplifying IT management and meeting security and compliance requirements, EPS Cloud has become a trusted partner to CIOs of some of the world's largest organizations.
