

WHAT'S SLOWING NETWORK GROWTH AND OPTIMIZATION?

Finding and managing the right suppliers can be a source of network complexity.

Increasing flexibility or minimizing management overhead. Improving performance or reducing cost. When it comes to your network goals, you shouldn't have to choose.

Platform Equinix is where complex networks are simplified

Platform Equinix Delivers

Accelerate application performance with direct interconnections between providers and enterprises

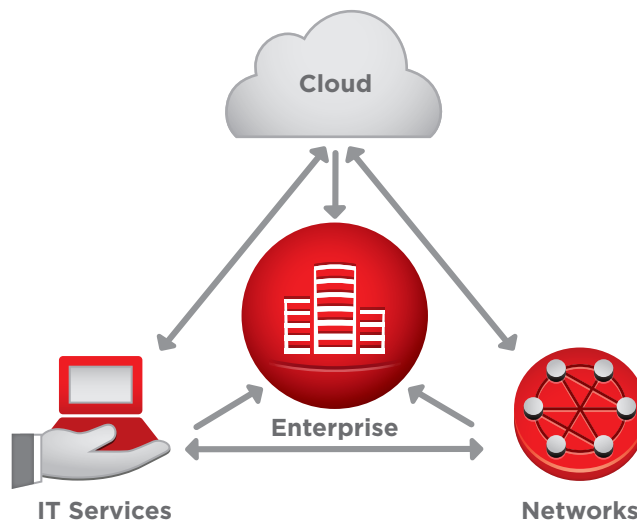

Expand service reach and offerings

Reduce total cost of ownership with network and service provider diversity

Grow revenue with our large base of customers

With Platform Equinix, you can find the most partners to expand your service reach and enter new markets

- Widest choice of potential partners with 1,100+ networks, 875+ financial service providers, 500+ cloud providers, 600+ IT service providers and all three of GSMA's data exchanges for mobile carriers
- Equinix exchange services, simplify interconnection services for service providers and consumers globally
- Coverage of major business and population centers across the Americas, EMEA and Asia-Pacific
- Base of 6,250+ enterprise customers a cross connect away

Assembling complex IT solutions for enterprises is easier with the right connections

EQUINIX

WHERE OPPORTUNITY CONNECTS

Equinix.com

EQUINIX

Interconnect and peer with 1,100+ networks

Expand with the Richest Variety of Network Solutions

For Network Service Providers:

- Expand service reach and addressable market by connecting to our exchanges or directly to partners
- Generate new revenue from our 6,250+ network-hungry customers
- Connect to partners to expand service offerings and move up the value chain
- Speed time to deliver value-added solutions directly into enterprise backbones

For Network Buyers:

- Leverage the broadest network choice for optimum IT performance, resiliency and cost control
- Improve performance with providers that deliver low-latency reach to end users
- Reduce time-to-market by leveraging direct connections between corporate wide area network providers and enterprise, cloud and managed service providers
- Choose one global infrastructure partner, while retaining flexibility to optimize regional and local network structure

100% of Tier 1 network routes are directly available through Platform Equinix

The Platform Equinix Advantage

- 1,100+ networks
- 875+ financial service providers
- 500+ cloud and 600+ IT services providers
- All three GSMA data exchanges

Platform Equinix has the strongest network ecosystem across our global footprint of any global provider. You can find the broadest choice of networks for interconnection and peering, the deepest reach to be closer to end users, the broadest opportunities for new revenue and the widest range of flexibility to assemble network solutions.

About Equinix

Equinix, Inc. (Nasdaq: EQIX) connects the world's leading businesses to their customers, employees and partners inside the most interconnected data centers. In 33 markets across five continents, Equinix is where companies come together to realize new opportunities and accelerate their business, IT and cloud strategies. In a digital economy where enterprise business models are increasingly interdependent, interconnection is essential to success. Equinix operates the only global interconnection platform, sparking new opportunities that are only possible when companies come together.
